Our Vision

• Developing successful citizens of the future equipped to deal with lifelong challenges who will think and act locally and globally, striving to improve and develop in order to succeed in a constantly changing world.

Our Mission

• Educate tomorrow’s child today by
  • Providing a broad, balanced and challenging curriculum, reflective of current research, where students are continuously engaged in learning
  • Providing well resourced, aesthetically pleasant, learning environments that stimulate children’s curiosity and creativity.
  • Establishing collaborative partnerships between school, home and the community.
  • Fostering dispositions that will promote environmental, cultural, social and financial sustainability.

Our Motto

• Learning today, Leading tomorrow
